Professional Summary

UI/UX Designer with strong **UI development** background. Specialized in **design systems**, accessibility (APCA), and **component-driven** interfaces. Experienced across **React, Angular, Svelte** UI layers, and **WordPress** environments.

Core Skills

- **Design:** Figma, Design Systems, Prototyping, Wireframing, APCA, UX Patterns
- **UI Development:** Semantic HTML, CSS Architecture, Responsive UI, Component Libraries
- **Ecosystems:** React, Angular, Svelte (UI Layer), WordPress (Themes, Gutenberg)

Featured Projects

INKED COLIBRI – FIGMA PLUGIN | FOUNDER & DEVELOPER
2024 - PRESENT

Figma plugin that streamlines color management and accelerates design system workflows.

- Converts color palettes into structured tokens with automatic shades and alphas
- Runs APCA contrast checks for accessibility
- Enables bulk style replacement and variable updates
- Supports CSS export for smooth developer handoff
- Includes a starter token system for quickly building consistent designs
